REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-20 are allowable because no prior art of record suggests a lighting system or method of mixing light having an optical cable attached to the mixing cavity, a color sensor attached to the optical cable, a color controller or control means for controlling the light color of light mixed by the mixing cavity and any one of the following features: at least a portion of the optical cable being outside the mixing cavity and a color sensor being located outside the mixing cavity (claims 1-3, 7, 8 and 17-19); wherein the optical cable is attached to the mixing cavity by a substantially optically clear and transmissive epoxy (claims 4-6); cable means connected between the mixing cavity and the sensor means and at least a portion of the cable means being located outside the mixing cavity (claims 9-11 and 16); cable means connected between the mixing cavity and the sensor means, wherein the cable means is attached to the mixing means by a substantially optically clear and transmissive epoxy (claims 12 and 13); wherein a neutral density filter is located between the cable means and the sensor means (claim 14); wherein a neutral density filter is situated within the mixing means so as to filter light received by the cable means (claim 15); wherein transporting light from the mixing cavity includes passing the light through a neutral density filter (claim 20).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
